## Local And Personal Notes

William K. M., a mining engineer of Tucson, arrived in the city yesterday on business.

Mrs. A. C. Harris is in the city from Cananea.

Howard Perry, of El Paso, is a business visitor.

Mrs. H. K. Kille arrived in the city yesterday from Cananea.

No Meeting.  
No meeting of the directors of the Commercial club was held last night. It was deferred until next Wednesday.

Many to Naco.  
Automobiles with sight seers began leaving Bisbee as early as 3 o'clock yesterday morning to be on deck when the expected final assault on Naco was to be made. By 9 o'clock yesterday morning more than 30 machines had made the trip.

Parcels Post Map.  
A large framed parcels post map, giving the zones from Bisbee, has been put up in the lobby of the Copper Queen hotel.

Girl Baby.  
Word was received yesterday afternoon of the arrival of a girl at the home of Mr. and Mrs. W. G. McBride, at Courtland. Mr. McBride is manager of the Great Western at Courtland and was former chief engineer of the Copper Queen here.

Sewer Extensions.  
Work was completed yesterday by the sanitary department on the sewer line extension up Cherry canyon. This extension connects five houses. Today work will begin on a small extension on Opera drive.

Moving.  
A number of the houses along the proposed new Naco road have been vacated and persons living in the remainder are making preparations to move. The date for beginning work on the road has not yet been set and will probably be about by the end of this month.

Examinations Held.  
W. J. Ackland, post office inspector at El Paso, arrived in the city yesterday and conducted an examination at the local post office for positions as dispatch clerks. Misses O'Leary, Mahan and McGill took the examination.

Boosting Navy.  
A number of special posters advertising for men for the navy have been received by the local post office. These are displayed on the bulletin board.

Inspecting Mines.  
G. H. Robin, mine inspector, is here on his quarterly inspection of the mines of the district. He expects to remain about three weeks. Bisbee, being the greatest mining district in the state, is one of the longest stops.

Double Charge.  
Zack Alexander, a negro, appeared before Justice Hester yesterday on the double charge of gambling and selling liquor without a license. He pleaded not guilty to both charges and was released under \$150 bonds. The gambling case will come up tomorrow afternoon and the liquor case on Saturday.

Indoor Baseball.  
Tonight a double header will be played in the indoor baseball series at the Y. M. C. A., the Y. meeting the Phelps Dodge and the Miners playing the Professionals.

Sacred Concert.  
The place club of the Y. M. C. A. will render a sacred concert in the lobby of the Y-building at 3 o'clock Sunday afternoon. The singers, of whom there are about 40, have been practicing for more than a month. The concert will be free and the public is invited.

Caroline Askew Dies.  
Mrs. Caroline Askew, age 22 years, wife of A. Askew, died yesterday at the residence of her Uncle, William Hawley. Death was due to pneumonia. Deceased had been in the city but ten days, coming here from the land. The funeral will be held this afternoon at 1:30 o'clock at the Presbyterian church. Rev. Fry officiating.

Sullivan-Yamess.  
Herbert Sullivan and Francis Yamess were married by Justice Hester in Tintown. The couple will make their home here, residing on Naco road.

Back to Old Town.  
Emanuel Kroll, well known musician, formerly with the Royal orchestra, arrived last evening from Kansas City, where he has been for some time. He will remain.

Paint Improves.  
Contracting Painter Carruthers is busy giving the Miner's store a spruce over both on the exterior and the interior. The establishment, in its new spring dress, makes much improved appearance and is decidedly more pleasing to the management.

Country Club Dance.  
Invitations have been issued for an informal dance to be held Friday night at the Country Club. The usual pleasurable evening attending these events is assured attendants.

Swimming Pool Work.  
More than 50 persons have so far volunteered to give their services in digging the excavation for the swimming pool at the Y. M. C. A. Arrangements will be made this week to organize the volunteers into regular squads. The excavation work has been delayed because of slow delivery of gravel for the cement work, but this is now all received. The cement wall near the bowling alleys has been torn out and a considerable amount of rock and earth removed. With the volunteers in squads, Secretary Putnam expects that the work will progress rapidly.

Vacations.  
Vacation time has started at the postoffice, Miss Dorothy Randle being the first to benefit. The vacations will each be for 17 days. Mrs. Esther C. Rufferty is on substitute until the vacation season is over.

Parcels Post Gain.  
Some indication of the large business done by the local postoffice in parcels post is shown by the sale of stamps from January 1, when the parcels post was inaugurated, up to March 31. For this period \$491.70 worth of the stamps were sold. Postmaster Cassidy reports that the parcels business is showing steady increase.

Gets New Chairs.  
The Royal Theater yesterday received the new opera chairs which are to go in the recently erected balcony. The chairs were delayed en route by the tie up in traffic caused by middle west floods. They are to be installed at once and the Royal will probably have its largest and increased seating capacity available to the public by Saturday night.

Death of Pioneer.  
E. Grenard, the first market gardener in the Warren district, died at his home in St. Paul, Minnesota on April 7 at the age of 82 years. He leaves a wife who is 80 who he married in Indiana fifty-eight years ago and raised a family of eleven children four of which are living, two daughters in St. Paul, a son in Pierre, South Dakota and H. G. Grenard, of Lowell, to mourn his loss. He left here when the Warren ranch started seven years ago.

Brings Mother.  
R. D. Micott, well known attaché of the Southern Pacific general offices at Naco, Sonora, for some years, arrived in the city yesterday in company with his mother, Mrs. A. Micott, who arrived at Naco yesterday morning from Tucson. Considering that Bisbee would be much safer for her, the railroad man brought her to this city to the home of his brother, where she will remain until the war trouble is settled at Naco. Mr. Micott returns to Naco this morning.

Paralyzed.  
Emma Moore, a colored woman, aged about 35 years, well known about the district as a laundress, was taken to the county hospital yesterday suffering from paralysis of the left side. She was stricken with the trouble near her home at Lowell, falling in the road. After being taken to her home she grew worse and following several days treatment there it was decided that she should be sent to the county hospital, she having but small funds and the surroundings at her home, where she lived alone, not permitting of proper care.

Was Disappointed.  
General V. G. Garcia of Dubach canyon and the Hermitage, was among military experts of Bisbee who viewed the skirmishing at Naco yesterday. The general returned for the afternoon shift without bullet puncture and somewhat disappointed, not so much because of lack of bodily evidence of the conflict but by reason of State plans still being in abeyance for the final sloop upon the Ojeda forces which is to put that valiant commander out of commission, according to the State way of calculating events of the future.

Interesting Sermon.  
"A Lecturer Converted" was Evangelist Martin's subject at the Church of Christ last evening. A quartette consisting of Mr. and Mrs. Williamson, Mrs. Harrington and Mr. Blah rendered a splendid piece of music. Among other things, Mr. Martin said, "Peter was the apostle of most human interest. Warm blooded, impetuous, headless, impulsive, thoroughly sincere and in earnest easily emptied and given to failure. It was before his conversion that Jesus' loving forgiveness. The steps leading up to his fall were: he boasted of his strength; he neglected prayer; he trusted to a sword instead of to God in his Lord's defense; he followed afar off; he sat down with the Lord's enemies; he cursed and swore he did not know Jesus."

### ATTENTION ELKS.

## "SAFETY FIRST" IS THE EFFORT

Division Committee of "Safety First" Organization of E. P. & S. W. in Bisbee Yesterday

### WOULD PROTECT LIFE

With a battle cry of "Better Be Careful Than Be a Cripple," the "Safety First" committee of the Western division of the El Paso and Southwestern Railway system, reached Bisbee yesterday just before noon, coming from Douglas where the committee arrived on Tuesday from El Paso. After lunch the committee made a thorough inspection of all railroad departments in the Warren district from the Bisbee depot to the freight yards at Don Luis. The committee is composed of representatives of each department on the Western division. It was headed by Division Superintendent E. B. King and accompanied by Edward L. Tinker, safety superintendent of the entire system and who has been in charge of the work of perfecting this "safety first" organization on the Southwestern. Trainmaster Effort, of Douglas, was also in the party yesterday. Following is a list of the committee which went on yesterday afternoon to Tucson:

Inspection of Track—F. Flomerfelt, chairman, J. Weiss, S. F. Phillips. Stations, Grounds and Stock Yards—W. W. Wadham, chairman, P. E. Gentine, R. T. Greene. Roundhouses and Mechanical Buildings—T. E. Merritt, chairman, A. H. Struthers, J. E. Murphy. Water Cranes and Pump Houses—F. M. Bolton, chairman, O. C. Horton, R. Klingensmith. Yards—J. H. Curlee, chairman, V. A. Vood, J. C. Bach. Repair Tracks—Fred Bottoms, chairman, Robt. Martin, C. B. Effort. Wires and Other Obstructions—W. James, chairman, R. H. Haller.

The chairman of each sub-committee will submit his report in writing at the next Western Division safety committee meeting which will be held at the Y. M. C. A. in Douglas at 7 p. m. on April 25th.

Scope of Inspection.  
The committee is covering the entire Western division and making a close study of every condition in every department, including methods of train operation, switching facilities and methods, tracks, shops, round houses, methods and facilities for loading and unloading cars, with the purpose of discovering causes which may result in accidents or injury. Many kodak pictures are being taken of dangerous conditions.

Safety Work is New.  
Edward L. Tinker, safety supervisor of the Southwestern system, told the Review yesterday that the work of preventing accidents through organization of safety committees on all roads is comparatively new. The first organization of the kind being perfected by the Pennsylvania system two years ago. On that system last year through the "Safety First" committee organization in the shop where are employed 35,000 men the decrease of accidents last year, over the year previous amounted to 65 per cent. By a similar organization on the "Frisco" system last year the number of fatalities were reduced 43 per cent and the number of accidents were reduced 25 per cent.

"The purpose of the El Paso & Southwestern 'Safety First' committee organization," said Mr. Tinker yesterday, "is to provide better protection for the employees in every occupation and the company is doing all possible to install into every employee the necessity for constant care for his own safety and also for the safety of his fellow workers."

"Many railroad men do not realize the constant presence of danger which attends railroading. On the Southwestern last year, or for the year ended June 30, 1912, one out of every train and switchman was injured; one of every 333 trainmen was killed; one out of every 1000 trackmen was killed; one out of every 8 of all the employees and officials was injured and one out of every 949 of all employees was killed."

"Of the four fatal accidents that occurred three were due to the carelessness of the man killed and of the total of 459 accidents resulting in injuries 248 were due, primarily, to carelessness and negligence and of the balance more than one-half could have been prevented by little more care on the part of the injured men or their fellow employees."

"Isn't it about time for us all to get to work in a combined effort of all interested to discover and eliminate every possible element of danger?" "The name of the Safety organization is to cut down this large number of deaths and injuries, which entail sorrow and suffering on so many good railroad men and their families, by securing more vigilance and co-operation among all employees of the system in preventing personal injuries of every kind."

The company has promoted this organization, primarily, for the employees, the ones that are getting killed and injured. Every time an experienced man is killed or injured, a green man takes his place, and you know very well that this increases the risk of every man working with him."

## SLUGGING ATHLETIC IN OLD-TIME FORM

Eddie Collins.

Eddie Collins of the Philadelphia Athletics, claimed by many critics to be the best second baseman in the game today is walloping the ball in his best form, a procedure which gives additional basis to manager Connie Mack's admitted penchant for him.

Collins has been hitting hard all through the spring training but the climate came the other day in a game with the Philadelphia National League when he got three hits off Brennan and Seaton, and drove in three of the five runs the Athletics scored. Evidently he is ready to make his personal noise among the base haters of the American League.

### NOTES INFLUENCING THE DAY

Democratic leaders in congress are deluged with protests from big manufacturers against the tariff bill. British manufacturers think that the tariff bill will increase trade with the United States. London cables say the situation is more cheerful.

Nevada Consolidated in February, produced 4,798,581 pounds as against 4,169,709 in January and 3,975,000 in December. Its February output was but 90,000 pounds less than that of the same months in 1912.

### LEVY BROS. MARKET LETTER

Today's market much stronger. It is apparently on the mend. The copper situation is better than it has been for several months. The Balkan situation about at an end and Europe is doing more buying. The big copper decrease is a bull card and the market should be good for several points.

### METAL MARKET

NEW YORK, April 9—Copper firm; electrolytic unchanged. Copper arrivals 655 tons. Exports this month 755 tons. London copper steady.
